TIGERFLOW, Your expert source for engineered fire protection systems...

TIGERFLOW FIRE PROTECTION SYSTEMS provide critical advantages for system owners, designers and contractors. The complete TIGERFLOW system is factory built, tested and ETL/C-ETL third-party certified before shipment. That means the unit arrives on site meeting and/or exceeding all relevant industry standards, including NEC and NFPA guidelines. Liability and performance risks are eliminated. System designers appreciate the time savings and TIGERFLOW expertise built into each project. Coordinated deliveries of third party certified systems make contractor performance penalties and delays inherent in site-built/site-certified systems a thing of the past.

Our promise to you...
Your TIGERFLOW factory engineered system will arrive ready to go and operate reliably to the required specifications, with the simplest of site installation.
